6°3

This group is the best they all pay attention and participate in the activities that I bring, I love work with them, they are my favorite they are disciplined and they also love my way of teaching they said that they are going to miss me when I finish my practice.

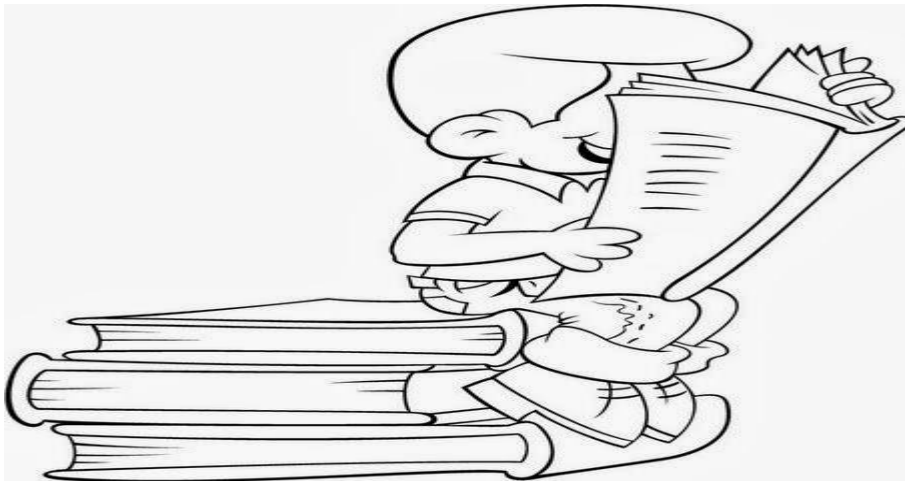

6°5

This time I had the opportunity to deal with a very difficult situation a boy and a girl

were kissing inside the classroom at that moment I did not know what to do it was awkward for at the end of the class I called them and to talked to them about that I jus said that it was not the appropriated place to do that that next time I will talk with the teacher about that I think that was the best

way to  
handle it.
